Installation Instructions

TOOLS REQUIRED:

- Safety Glasses
- Drill & drill bit (only needed if existing hole is not available)
- Adjustable wrench

A. PREPARE MOUNTING HOLE

1. Select one of the following places for the faucet. Be sure it will fit flat against the surface, and there is space underneath for tubing.

- ⇒ Use an existing sink top hole for a spray hose or other faucet. A 1-1/4" diameter hole is needed.
- ⇒ Drill a new hole in the countertop next to the sink.
- ⇒ Drill a new hole in the sink top.

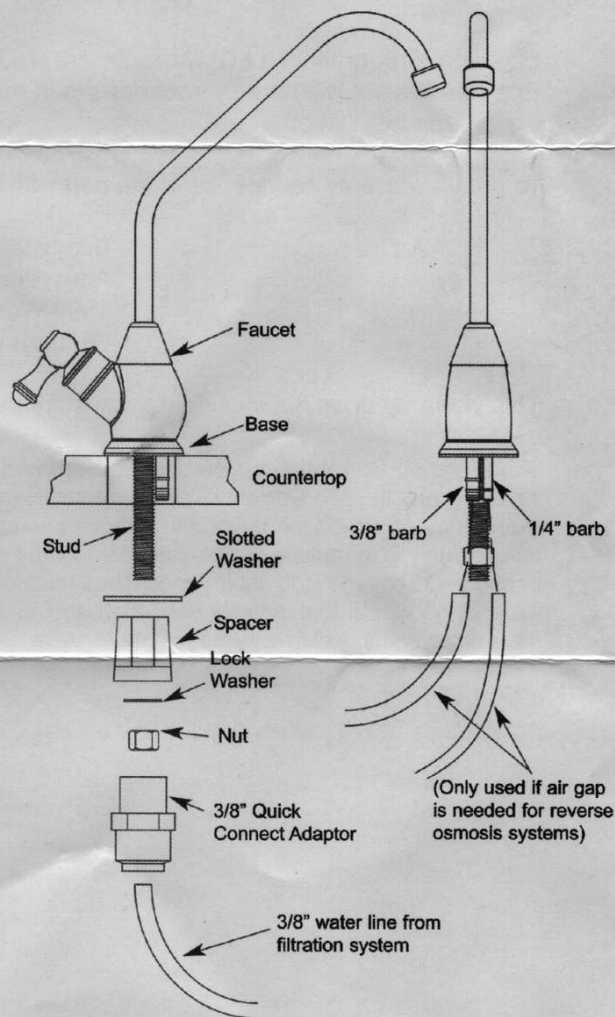

IMPORTANT: Drilling holes into countertops made of stone or solid surface materials such as granite, marble, Corian™ or other plastic resin products or sinks made of porcelain and stainless steel should only be performed by a qualified installer who is certified for drilling such materials. Drilling of these type surfaces by any other means may cause permanent, irreparable damage to the countertop surface.

2. If drilling is needed, make the 1-1/4" diameter hole.

B. ASSEMBLE FAUCET

If using this faucet with an existing Drinking Water system, follow manufacturer's installation instructions.

1. Remove the nut from the end of the stud. Slide the spacer and lock washer on the stud. Place the nut back on the stud.
2. Work tubing and the faucet stud down, into the mounting hole.
3. On the underside of the sink or countertop, slide the slotted washer between the countertop and spacer. Tighten the hex nut securely.
4. Wrap stud with Teflon tape provided and thread the 3/8" quick connect adaptor onto the end of the stud and tighten securely.
5. Connect 3/8" water line from filtration system by pushing line into 3/8" quick connect adaptor.
6. If a drain line is required to run through the faucet for a reverse osmosis (RO) system, connect the 1/4" drain line from the unit to the smaller barb on the bottom of the faucet. Connect the 3/8" line from the faucet to the drain.

Limited Warranty
Ecodyne Corporation, LLC

EcoPure Faucet

Ecodyne Corporation, LLC warrants its products to the original owner and guarantees that the EcoPure Faucet will be free from defects in materials and workmanship for a period of 90 days from the date of installation.

To obtain warranty service, send the part with a copy of your sales receipt to:

Ecodyne Corporation, LLC
Attn: Warranty
1890 Woodlane Drive
Woodbury, MN 55125

This warranty does not include normal shipping, installation or service charges.

There are no warranties on the faucet, beyond those specifically described above. All implied warranties, including any implied warranty or merchantability or of fitness for a particular purpose, are disclaimed to the extent they might extend beyond the above periods. The sole obligation of Ecodyne Corporation, LLC under this warranty is to replace or repair the component or part, which proves to be defective within the specified time period and Ecodyne is to liable for consequential or incidental damages. No authorization is given to extend or expand the warranty expressly described above. This warranty gives you specific, legal rights, and you may have other rights, which vary from state to state.
